Liberals Shut Down Debate

Tonight (Monday), the Liberals have filed a closure motion on LHINs, which terminates debate. It will be debated tomorrow (Tuesday) evening from 6:45-9:30 p.m. and then we expect the 3rd Reading vote on the Bill before Question Period on Wednesday at approximately 1:50 p.m.

People will be gathering at Queen's Park by 6:45 pm tomorrow (Tuesday) for the debate.

Go to the east door of Queen's Park to gain admittance to the Gallery in the evening.

What's Next?

Thank you to all of those who have done such tremendous organizing to try to delay the legislation. Your work has been critical in warning communities about the upcoming restructuring orders that will be issued by the LHINs. What's Next? On Thursday, we will be holding protests with steamrollers and bulldozers outside Liberal MPP offices across the province. Then we will push for stronger regulations regarding conflict of interest, process issues etc. We must insist on the release of Minister's Strategic Plan with which he intends to rule the health system and we will need to push strongly for a broad consultation process on this. We will also need to gear up to protect our local health services from restructuring orders that can include forced closures, service cuts and transfers. We will be sending out more information on the steps we will need to do to finish setting up the communications and other systems to do this for each LHIN after the protests.
