Ontario's Liberal government is cutting billions of dollars from the health care you and your family count on.

Ontarians are paying the price for years of the deepest tax cuts in the country, by curtailing health funding by \$3 billion.

That's tax cuts for the wealthiest and corporations

That's billions in real dollar cutbacks – this year and for the next four years if we don't stop them.

All across Ontario hundreds of hospital beds are being closed down.

Patients are lined up on stretchers in hallways.

Local services are being cut and moved out of town.

Outpatient clinics are being privatized.

Home care and nursing home placements are severely rationed and many have to wait a long time, pay for private care or go without.

It doesn't have to be this way.

Come out to an event near you and show your support!
