For-profit MRI & CT Scan Update: Clement says he's looking at it, Eves says "policy is evolving"

On Thursday, the Ontario Health Coalition released our report "Scanning For Profit: A Critical Review of the Evidence Regarding For-Profit MRI and CT Clinics" in a press conference at Queen's Park. (The report is available on our website, to download the report [click here](#). To view the report online [click here](#).) Media response was excellent. The story was carried every hour on CBC radio and was featured in articles in the Toronto Star and Globe and Mail as well as in local media across the province.

By Friday, Ontario Health Minister Tony Clement told the CBC that he is looking at the findings in the report -- that if for-profit clinics are not faster, better, cheaper than the government won't privatize. Ernie Eves said that the government's policy on this matter "is evolving."

Let's help him evolve it a little faster. You can contact Ernie Eves at:
