WE CAN STOP THE CUTS!

**Our hospital has been decimated**, all that remains is an urgent care centre and complex continuing care beds. All in-patient services have been cut and the urgent care centre is essentially a walk-in clinic. All patients requiring emergency care are forced to travel further for the care they need. Now, there is a proposal to close what is left in Port Colborne and the nearby Welland Hospital is on the verge.

## Working together, we can save our services!

In many communities we have successfully stopped hospital cuts.

Join the Niagara Health Coalition to discuss local health care concerns and help plan the fight-back campaign!
