

Pharmacare

A PLAN FOR EVERYONE

Over the next few months, the Canadian Labour Congress will host town hall meetings in more than 25 communities across the country. Featuring Canada's foremost pharmacare experts and advocates, these important discussions will address why we need a universal prescription drug plan that covers all Canadians, regardless of their age, income, or where they work or live. The dates and cities below are part of the Ontario leg of the tour sponsored by the Canadian Labour Congress and the Ontario Health Coalition.
