"It is urgent that we gather all our allies and strategize about how we are going to position the key health care issues leading into Ontario's provincial election next spring. Ten years of harsh 'austerity' budgets have taken their toll. It is time to rebuild. We must show people that there are alternatives. And we must insist that our politicians listen to the values of Ontarians that place caring for each other as a priority. We must ensure that privatization is stopped, our health care services are restored and revitalized, and public health care for all is protected. Together, we can make sure that these issues are at the top of the public agenda." Natalie Mehra, Executive Director
