## COVID-19 UPDATE

### Tracking of COVID-19 Outbreaks in Health Care Settings

Updated to: 2:00 p.m. July 13 2020 Released July 23, 2020

## Introduction

*Each number included in this tracking data represents a human being who is loved and who has experienced the terrible toll of COVID-19: staff who have gone to work despite the risk and the fear; residents and patients who have contracted COVID-19; families and communities who have lost their loved ones; staff who have made the ultimate sacrifice. You are in our hearts. To the media, the Public Health and Ministry staff who have been tracking and compiling this information for public scrutiny, thank you for your work. To all of you, we give our commitment to advocate to the best of our ability and to do everything we can do for the best protection and care for all affected.*

*This report is the result of many hours of work by our staff and volunteers.*

*A special thank you is due to the following volunteers who have gone above and beyond to help track the spread of COVID-19 in health care settings in their communities:*

Nick Alpin  
Rose Anderson  
Roy Brady  
Elyse Chaikalis  
Rolf Gerstenberger  
Matthew Gventer  
Sue Hotte  
Xiaohan (Erica) Hou  
Dot Klein  
Claire Lownie  
Alma Martin  
Mary Catherine McCarthy

Magee McGuire  
Zaid Noorsumar  
Veda Popal  
Tracey Ramsey  
Zoya Retiwalla  
Shirley Roebuck  
Mervyn Russell  
Stuart Ryan  
Samrin Sobahan  
Bryan J. Smith  
Jim Stewart  
Jules Tupker

*A special and heartfelt thank you also to Megan Lee, Riley Sanders and Salah Shadir, our intrepid and talented staff who have worked day and night to research, fact check and distribute these tracking report updates throughout the pandemic.*

*We are deeply grateful and we simply could not have continued to do this work without all of you. Thank you.*

*Natalie Mehra, Executive Director*

# Summary & Charts

Since the week of March 12, the Ontario Health Coalition has been tracking all people who have been infected with COVID-19 in outbreaks in health care settings including hospitals, long-term care, retirement homes, public health units, clinics and congregate care settings, as well as among other health professionals such as paramedics. This has become a gargantuan task but an important one because it enables us to see more fully than is possible from the government data where the spread in health care is happening and whether infection control measures are working to control it.

This report shows the trend from June 17 to July 13. There are notable changes. First, both Public Health Ontario and the Ministry of Long-Term Care have discontinued publishing on the website vital pieces of the data as listed below with no explanation. We are extremely concerned as there must be a consistent set of data to compare in order to see the trends. We cannot imagine what justification can be used for hiding the data that has been discontinued as it has been measured and publicized for months now. In terms of the spread of COVID-19, this period shows further evidence of a clear downward trend. Both the number of active outbreaks and the number of people (both residents/patients and staff) in health care settings with new infections have gone down, as they did four weeks ago. The death rate, however, is still climbing. However, the rate of increase in deaths, though still tragic and significant, has decreased from the previous four weeks.

Here are the key findings from the most recent tracking contained in this report of cases in health care settings across Ontario up to the afternoon of July 13:

- Public Health Ontario has ceased to report the following in the daily epidemiologic report as of June 10<sup>1</sup>: the total number of health care workers infected, the numbers of confirmed cases by likely source of acquisition (exposure), and the total number of cases among retirement and hospital outbreaks. June 9 was the last time they included this information in the daily epidemiologic report.<sup>2</sup> It is still reported separately on the Weekly Epidemiologic Summary that was first released almost six months after Ontario started confirming COVID-19 cases (May 31 to June 6).<sup>3</sup> However, it does not specify how many cases are reported among staff as opposed to patients/residents, nor the total number of deaths, deaths among residents/patients, and deaths reported among staff. They have not provided any explanation for discontinuing the reporting of these vital pieces of data.
- The Ministry of Long-Term Care data has also been changed. For the aggregate numbers, they are now only reporting the currently active cases each day in long-term care homes (see Chart 2) not the cumulative totals of residents and staff infected by COVID-19 in long-term care outbreaks to date. In their chart of outbreaks in long-term care homes they are now only reporting currently active cases and have discontinued reporting the totals to date. Again, there is no explanation for discontinuing this reporting.
- The total number of people infected by COVID-19 in health and congregate care settings including staff and patients/residents is 11,357 as of July 13, up from 11,173 as of June 17. This total increased by 184 people or 1.6 percent in two weeks, approximately half the growth rate from the previous four weeks when the increase was 3.1 percent.
- The total number outbreaks in health care and congregate care settings that the Ontario Health Coalition found as of July 13 is 694 (including 595 resolved) in 570 facilities including hospitals, long-term care homes, retirement homes, Public Health Units, clinics and other congregate care settings. As

<sup>1</sup> *Daily Epidemiologic Summary*. [Public Health Ontario](#). June 10, 2020. Note: it is not clear why the case numbers do not add up to the totals. These are Public Health's numbers.

<sup>2</sup> *Daily Epidemiologic Summary*. [Public Health Ontario](#). June 9, 2020. Note: it is not clear why the case numbers do not add up to the totals. These are Public Health's numbers.

<sup>3</sup> COVID-19 in Ontario: Focus on May 31, 2020 to June 6, 2020. [Public Health Ontario](#). <https://covid-19.ontario.ca/covid-19-epidemiologic-summaries-public-health-ontario#weekly>

of June 17, we found 664 outbreaks (including 526 resolved) in 557 facilities. The number of outbreaks that are active across health care settings that we have found is now 99 compared to 138 four weeks prior (June 17, though we may not have been able to find all outbreaks as there is less public reporting now than there was in April through to early May).

- We have added Chart A to show the new outbreaks that we have found since our last report on June 17. We have found 30 new outbreaks, 12 of which are from new long-term care homes, retirement homes, and hospitals that that did not previously have outbreaks. From these new outbreaks there are a total of 36 staff members who have contracted COVID-19 in health and congregate care settings, and 27 patients/residents. We found 1 resident deceased among the new outbreaks.
- The total number of patients/residents that have been infected by COVID-19 in health and congregate care settings has also increased. By July 13 we have tracked a total of 6,934 patients/residents who have contracted COVID-19 in health and congregate care settings. This is an increase of 66 patients/residents in four weeks (since June 17) or 1.0 percent. This is down from the 2.3 percent increase we calculated between June 2 and June 17.
- The total number of staff that have been infected by COVID-19 in health and congregate care settings has also increased. By July 13 we have tracked a total of 4,394 staff members who have contracted COVID-19 in health and congregate care settings. This is an increase of 115 staff in four weeks (since June 17) or 2.6 percent. This is down from the 4.2 percent increase we calculated between June 2 and June 17
- Despite the decrease in infection rates, tragically, the death toll among patients, residents and staff in health and congregate care settings has continued to increase although the rate of increase has slowed. The Ontario Health Coalition is deeply sorry to report that as of July 13, we found a total of 2,153 patients and residents deceased in outbreaks in health and congregate care settings, up from 2,107 deceased as at June 17. That increase amounts to a heartbreaking 46 residents and patients over four weeks or an increase of 2.1 percent. This is down from the 9.8 percent increase we calculated between June 2 and June 17.

**Note about Methodology:** In order to compile this list, we have tracked the daily updates from the 34 Public Health Units in Ontario, including the epidemiological details and outbreak reports where they are publicly available. We have searched each facility name to identify whether it is long-term care or a retirement home and to find details about the cases reported in the aggregate numbers by Public Health Units. We have tracked and compiled media reports of outbreaks with details from across Ontario that contain credible source information (for example, they cited the Public Health Unit, long-term care home administration or hospital administration). Local Public Health Units report in different ways with varying levels of detail. Some do not provide breakdowns of staff/patients/residents. Local Public Health Units usually post outbreak reports for public hospitals, long-term care and retirement homes. The provincial-level information from Public Health Ontario does not include retirement homes or other health care and congregate care/living settings. We have tried to capture everything we can about retirement homes and other health care settings in addition to hospitals (public and private) and long-term care homes using the methodology outlined here. We have not been able to catch up on shelters, group homes and all the various congregate care settings. For that we apologize and will try to capture as much as we can going forward. It is not clear why Public Health Ontario's numbers for the outbreaks in long-term care and public hospitals are lower than ours. We have repeatedly checked ours for accuracy and we have provided information in the most transparent way possible. In addition, Public Health Units are reporting retirement home outbreaks separately and these numbers should be available to Public Health Ontario but Public Health Ontario does not report the aggregate numbers for retirement homes. Given the number of outbreaks in these private for-profit homes, it is important that the spread in them is also tracked and that they are subject to improved public health measures (and the support needed) to protect residents and staff. Overall, we have tracked every individual case and report in the most credible manner possible and have included sources for each report in the footnotes.

**Chart A. New Outbreaks from June 17 to July 13**

**Long-Term Care Homes**

	<b>Public Health Unit</b>	<b>Municipality</b>	<b>New Confirmed Cases from June 17 to July 13</b>
FJ Davey Home	Algoma	Sault Ste. Marie	1 staff
Winbourne Park Long-Term Care Home	Durham	Ajax	2 staff
Extendicare Oshawa	Durham	Oshawa	2nd outbreak- 2 staff
Elgin Abbey Continuing Care Residence for Seniors	Grey Bruce	Chelsey	1 staff
The Elliott Community Long Term Care Facility	Wellington Dufferin Guelph	Guelph	1 staff
Linhaven Home for the Aged	Niagara	St. Catharines	3 staff
Tabor Manor	Niagara	St. Catharines	2 staff
Waters Edge Care Community	North Bay Parry Sound	North Bay	1 staff
Extendicare Medex	Ottawa	Ottawa	1 staff, 1 resident
Montfort Long-Term Care Centre	Ottawa	Ottawa	2nd outbreak- 1 staff
Baycrest's Apotex Centre	Toronto	Toronto	4th outbreak- 1 staff, 1 resident
Harmony Hills Care Community	Toronto	Toronto	1 staff, 1 resident
Kensington Gardens	Toronto	Toronto	3rd outbreak
Tendercare Living Centre	Toronto	Toronto	2nd outbreak
Wesburn Manor	Toronto	Toronto	2nd outbreak

**Retirement Homes**

	<b>Public Health Unit</b>	<b>Municipality</b>	<b>New Confirmed Cases from June 17 to July 13</b>
Briarwood Gardens Retirement Home	Brant County	Brantford	2nd outbreak- 1 staff
Amica Westboro Park	Ottawa	Ottawa	1 staff
Southbrook Retirement Community (Southbrook Lodge)	Peel	Brampton	1 staff
Port Credit Residence	Peel	Mississauga	1 staff
Village of Erin Meadows RH	Peel	Mississauga	2 outbreaks- 4 staff
Presentation Manor RH	Toronto	Toronto	1 outbreak

**Public Hospitals**

	Public Health Unit	Municipality	New Confirmed Cases from June 17 to July 13
Trillium Health Partners- Credit Valley Hospital Unit 1C	Peel	Mississauga	2 patients
William Osler Health Network- Etobicoke General Hospital	Toronto	Toronto	3rd outbreak- 3 patients
Runnymede Healthcare Centre	Toronto	Toronto	2nd outbreak- 1 staff, 1 patient
St. Joseph's Health Centre	Toronto	Toronto	2nd & 3rd outbreaks- 7 staff, 15 patients
West Park Healthcare Centre	Toronto	Toronto	2nd outbreak- 1 staff, 4 patients
<b>Other Health Care &amp; Congregate Care Settings</b>			
	Public Health Unit	Municipality	New Confirmed Cases from June 17 to July 13
Bairn Croft Residential Services	Ottawa	Ottawa	1 staff
Christian Horizon – Vaughan	York	York	1 staff, 1 resident (1 death)
<b>Total new outbreaks: 30</b>  <b>Total confirmed staff from new outbreaks: 36</b> <b>Total confirmed patients/residents from new outbreaks: 21</b> <b>Total resident deceased from new outbreaks: 1</b>			

### Chart 1. Health Care Staff and Patient/Resident COVID-19 Confirmed Cases as of July 13 2020

(This chart shows the number of cases for which we have found public reporting as per the explanatory notes in the introduction. All are tracked in the tracking list in this report.)

Long-Term Care – 312 homes with 369 outbreaks (324 resolved)			Hospitals – 60 hospitals with 109 outbreaks (84 resolved)			Retirement Homes -- 153 homes with 170 outbreaks (149 resolved)			Home Care- 3 outbreaks		Other Health Care Settings* – 42 homes with 43 outbreaks (35 resolved)	
Staff Confirmed Cases  (includes those who have died)	Residents Confirmed Cases  (includes those who have died)	Unspecified  (not clear if they are residents or staff)	Staff Confirmed Cases  (includes those who have died)	Patients Confirmed Cases  (in hospital outbreaks; includes those who have died)	Unspecified  (not clear if they are patients or staff)	Staff Confirmed Cases  (includes those who have died)	Residents Confirmed Cases  (includes those who have died)	Unspecified  (not clear if they are residents or staff)	Staff Confirmed Cases	Patients Confirmed Cases	Staff Confirmed Cases  (includes those who have died)	Patients/Residents Confirmed Cases  (includes those who have died)

**Total facilities with outbreaks:** 570 (note: there are multiple outbreaks in several hospitals and in this total each hospital is counted as one even if it has multiple outbreaks)

**Total outbreaks:** 694 **Total resolved outbreaks:** 595

**Total confirmed staff across all subsectors:** 4,394

**Total confirmed residents/patients across all subsectors:** 6,934

**Total unspecified (staff and/or patients/residents):** 29

**TOTAL staff and patients/residents:** 11,357

**Total residents/patients deceased:** 2,153

**Total staff deceased:** 14

**Other deceased:** 2 (family/volunteer)

**TOTAL deceased:** 2,169

\*(Congregate care/living, health clinics, two private mental health and addictions facilities)

likely he did not contract COVID-19 in the hospital.<sup>11</sup> On April 15, it was reported that a Personal Support Worker died.<sup>12</sup> She worked at a long-term care home on the eastern edge of Scarborough. Her passing was not recorded in the numbers from Public Health April 16.

- **April 7 2020**- Provincial health officials stated that 513 out of the 4,726 Ontario patients were health care workers – 10.9 per cent of cases.<sup>13</sup>
- **April 6 2020**- Of the 4,347 confirmed cases in Ontario, 451 of them were among health care workers, or 10.4 per cent.<sup>14</sup>
- **April 2 2020**- There were 229 lab-confirmed cases in health-care workers. Ministry of Health provided in response to an inquiry from CBC News revealed 9.6 per cent of the province's 2,392 confirmed COVID-19 cases involve physicians, nurses, paramedics, personal support workers, long-term care home staff and members of other health-care professions. Provincial officials did not provide a breakdown of Ontario's confirmed cases involving health-care workers by specific roles, transmission source or region.<sup>15</sup>
- **March 28 2020**- Ontario chief medical officer Dr. David Williams reported 91 health-care workers in Ontario had tested positive for COVID-19 since the end of January. He said they were unable to confirm how many of those people were exposed or infected on the job at the health-care facilities.<sup>16</sup> It appeared that some homes were not testing all residents who were sick after the first three (or more) test positive.<sup>17</sup>

- **May 7 2020** – Algoma Public Health declared an outbreak at Extendicare Maple View LTC in Sault Ste. Marie, after 3 residents test positive.<sup>20</sup>
- **May 22 2020** – Algoma Public Health declared the outbreak at Extendicare Maple View to be resolved.<sup>21</sup>
- **June 16 2020**– A second outbreak has been confirmed by Extendicare Maple View LTC in Sault Ste. Marie with a staff member testing positive for COVID-19.<sup>22</sup>

#### FJ Davey Home

- **June 19 2020**– “Suspect outbreak” measures were put in place at FJ Davey Home, a nursing home in Sault Ste. Marie. One staff member tested positive, and is self-isolating. The individual was tested in June 17; at least one more test result is pending. F.J. Davey said it is not yet declaring an outbreak.<sup>23</sup>

### Brant County

- **March 18 2020**- The test results of an employee at Woodstock General Hospital were confirmed as positive by the Brant County Health Unit on Tuesday March 17. The employee, in her 40s from Brant County, worked at the hospital from March 9 to March 11, and was said to have had limited patient contact.<sup>24</sup>
- **March 30 2020**- Two staff members at Caressant Care long-term care home in Woodstock were self-isolating after one tested positive for COVID-19. A spokesperson for the long-term care home said they were notified on Friday March 27 by a staff member who reported testing positive for COVID-19. That individual did not have any contact with residents while at work, and was self-isolating. A second staff member who was in contact with the infected individual was also at home self-isolating.<sup>25</sup>

#### Briarwood Gardens Retirement Home

- **April 29 2020**- A new outbreak was declared at Briarwood Gardens Retirement Home in Brantford with 1 staff member testing positive for COVID-19 on April 29 2020.<sup>26</sup>
- **May 20 2020**- The outbreak at Briarwood Garden Retirement Home was declared resolved.<sup>27</sup>
- **July 14 2020**- A second outbreak was declared at Briarwood Gardens, with one staff member testing positive for COVID-19.<sup>28</sup>

- **April 3 2020**- The Brant County Health Unit has declared a COVID-19 outbreak at a nursing home, St. Joseph's Lifecare in Brantford, after an employee at tested positive for the virus. Dr. Elizabeth Urbantke, Brant's acting medical officer of health, said they were self-isolating at home.<sup>29</sup>
- **April 12 2020**- The outbreak at St. Joseph's Lifecare Centre was declared resolved.<sup>30</sup>
- **April 28 2020**- A new outbreak was declared at St Joseph's Lifecare Centre, which was the facility's second outbreak, and there were two staff members who tested positive.<sup>31</sup>
- **May 20 2020**- The outbreak at St Joseph's Lifecare Centre was declared resolved.<sup>32</sup>

#### Telfer Place

- **April 3 2020**- The Brant County Health Unit reported an outbreak at Telfer Place in Paris, northwest of Brantford with a case in one staff member. Dr. Elizabeth Urbantke, Brant's acting medical officer of health, said both they were self-isolating at home.<sup>33</sup>
- **April 4 2020**- Susan Schutta, vice-president of corporate affairs for Revera (owners of Telfer Place), clarified that an agency worker, known as a third-party caregiver, visited the retirement portion of the complex on March 16 and tested positive for COVID-19 on March 30. She said the third-party caregiver didn't visit the long-term care portion of Telfer Place, which is separate from the retirement area.<sup>34</sup>
- **April 12 2020**- The outbreak at Telfer Place was declared resolved.<sup>35</sup>
- **April 28 2020**- Telfer Place LTC had another outbreak with one resident who tested positive.<sup>36</sup>
- **May 20 2020**- The outbreak at Telfer Place was declared resolved.<sup>37</sup>
- **June 15 2020**- A third outbreak has been declared at Telfer Place LTC with two staff members testing positive for COVID-19.<sup>38</sup>
- **July 14 2020**- The third outbreak at Telfer Place was declared resolved.<sup>39</sup>

#### Chatham-Kent

- **March 30 2020**- Lori Marshall, president and CEO at the Chatham-Kent Health Alliance hospitals, said that 100 staff and 17 physicians were on self-isolation at home.<sup>40</sup> It appears a number of these were people returning from March break, though the information was not clear.
- **April 7 2020** – Lori Marshall confirmed in an email in response to a request for clarification from the local Health Coalition that all staff were cleared. All were self-isolating due to travel. There had been no institutional outbreak.

- **April 30 2020-** Outbreak at Sepoy Manor declared over/rescinded by the public health unit due to the original positive test being confirmed as a false-positive result.<sup>209</sup>

## Guelph and Area

### Hospitals

#### Guelph General Hospital

- **March 24 2020-** Wellington-Dufferin-Guelph Public Health (WDGPH) said two employees at Guelph General Hospital (GGH) contracted COVID-19. Hospital officials said they were both self-isolating at home.<sup>210</sup>
- **March 26 2020-** Four health care workers at Guelph General Hospital (including the two identified on March 24) and 1 patient were infected and more were expected, said Marianne Walker, CEO of GGH. GGH and WDGPH declared an outbreak of COVID-19 on a medical ward (4E) at the hospital.<sup>211</sup>
- **April 3 2020-** There were 24 staff members at Guelph General Hospital who tested positive for COVID-19 as of Friday (April 3) morning. Most of the cases were connected to the outbreak on wing 4E that was discovered the previous week. Dr. Nicola Mercer, Medical Officer of Health for WDGPH, said that to her knowledge all 24 were self-isolating and recovering at home.<sup>212</sup>
- **April 9 2020-** Guelph General Hospital said an COVID-19 outbreak in one of their units had been declared over. The hospital said the decision was made on Thursday in consultation with Wellington-Dufferin-Guelph Public Health as it had been 14 days since the last hospital-acquired COVID-19 patient was put into isolation.<sup>213</sup>
- **June 2 2020-** Wellington-Dufferin-Guelph Public Health reported cases in 4 patients and 18 staff associated with the resolved outbreak at Guelph General Hospital.<sup>214</sup>

#### Headwaters Health Care, Orangeville

- **March 31 2020-** Five staff at the hospital at Headwaters Health Care Centre (HHCC) tested positive for COVID-19. They were at home and were self-isolating for 14 days.<sup>215</sup>

- **April 18 2020-** An outbreak was declared at the Ross Memorial Hospital in Kawartha Lakes. A patient, who was relocated to an isolation room in the hospital's dedicated COVID-19 unit, and two staff members, who were isolating at home, tested positive for COVID-19 at the hospital.<sup>284</sup>
- **May 8 2020-** The outbreak at the Ross Memorial Hospital in Kawartha Lakes was declared over by the hospital.<sup>285</sup>

## Bobcaygeon

### Case Manor Care Community LTC

- **April 28 2020-** A second outbreak was declared in Bobcaygeon at Case Manor Care Community LTC with 6 residents and 6 staff testing positive for COVID-19.<sup>286</sup>
- **April 30 2020-** Case Manor Care Community LTC has had one more staff member test positive for COVID-19 bringing the total to 7 staff members and 6 residents.<sup>287</sup>
- **May 7 2020-** The outbreak at Case Manor Care Community LTC was declared removed by the Haliburton, Kawartha, Pine Ridge District Health Unit after a laboratory error produced false positives. The individuals were re-tested and received negative COVID-19 test results.<sup>288</sup>

### Kawartha Lakes Retirement Residence

- **May 12 2020-** An outbreak has been declared at Kawartha Lakes Retirement Residence with one staff member testing positive for COVID-19.<sup>289</sup>
- **June 1 2020-** The outbreak at Kawartha Lakes Retirement Residence was declared over by the Haliburton, Kawartha, Pine Ridge District Health Unit.<sup>290</sup>

### Pinecrest Nursing Home

- **March 20 2020-** Three residents of a long-term care home in the village of Bobcaygeon northeast of Lindsay, two men, ages 89 and 61 and a 94-year-old woman, had tested positive for COVID-19. Late Friday afternoon, Dr. Lynn Noseworthy, medical officer of health for the Haliburton, Kawartha, Pine Ridge District Health Unit, said the residents live at Pinecrest Nursing Home.<sup>291</sup>
- **March 26 2020-** Fourteen employees of Pinecrest Nursing Home in Bobcaygeon had tested positive for COVID-19. Two residents died; one on Tuesday March 24, and one on Wednesday March 25. Sixteen more staff and thirty-five more residents were also showing symptoms. Test results for the sixteen staff were pending. It was not clear how many residents or staff may have had COVID-19 because testing was limited only to residents and staff who showed symptoms.<sup>292</sup>

- **April 2 2020**- Two more health care workers at Kingston General Hospital tested positive for the virus, bring the total of infected workers at that hospital to three.<sup>497</sup>
- **April 15 2020**- The outbreaks at Providence Manor and Providence Care Hospital ended. "Staff members who tested positive for COVID-19 had recovered and were back at work or would soon be returning," said Providence Care on Wednesday, regarding both facilities.<sup>498</sup>
- **April 20 2020**- Kingston, Frontenac, Lennox and Addington Public Health report fourteen health care workers that tested positive for COVID-19.<sup>499</sup>
- **April 24 2020**- The COVID-19 test for a resident of Providence Manor who launched outbreak protocols at the long-term care facility was determined to be a false positive on Friday April 24, according to Providence Care.<sup>500</sup>
- **April 25 2020**- According to KFL&A Public Health, one health-care worker tested positive for the novel coronavirus. Public health would not identify where the health-care worker is employed. Providence Care says there were a total of four health-care workers from Providence Care who tested positive for the virus.<sup>501</sup>
- **April 28 2020**- Kingston Health Sciences Centre (Kingston General) said on Tuesday April 28: "There have been a total of four health-care workers from Kingston Health Sciences Centre who have tested positive for the virus. The health-care worker announced yesterday by Public Health is not an employee of KHSC." There were no outbreaks listed on public health's novel coronavirus dashboard, so the health-care worker does not work at a long-term care facility. 16 health care workers total in Kingston region have tested positive; we account for 11 of them.<sup>502</sup>

## Kitchener-Waterloo Hospitals

- **April 14 2020**- The Waterloo Region Public Health Unit reported that Cambridge Memorial Hospital had 4 staff that tested positive.<sup>503</sup>
- **May 1 2020**- Cambridge Memorial Hospital confirmed that 6 staff members have tested positive in total. Four have already been cleared to return to work after self-isolating and testing negative for the coronavirus, and four other staff members are currently awaiting their results. They did not declare an outbreak.<sup>504</sup>

- **March 19 2020-** Region of Waterloo Public Health confirmed an employee at St. Mary's Hospital, a female in her 20s, tested positive for COVID-19 and is self-isolating at home.<sup>505</sup>
- **March 21 2020-** More than 50 nurses at St. Mary's General Hospital in Kitchener were exposed to a patient who tested positive on Thursday March 19, and the six staff who demonstrated symptoms were referred to public health for "fast track testing".<sup>506</sup>
- **April 18, 2020-** St. Mary's General Hospital declared an outbreak in two of its units. A third-floor unit was closed to admissions after a patient-to-patient transmission was believed to have occurred. Two patients were confirmed as COVID-19 positive (in addition to patients that have been admitted to hospital with COVID-19 not as a result of patient-to-patient transmission). A second outbreak among a cluster of staff confirmed to have tested positive was traced to a common area on the sixth floor. To date 22 staff tested positive for COVID-19 at this hospital. All were self-isolating at home.<sup>507</sup>
- **April 29 2020-** Region of Waterloo Public Health reported that 2 outbreaks at St. Mary's Hospital had ended (the outbreak on the 6<sup>th</sup> floor unit ended on April 29, and the one on the 3<sup>rd</sup> floor unit ended on April 30), with a third outbreak ongoing on the 5<sup>th</sup> floor Medicine Unit that started on April 23.

#### Grand River Hospital

- **March 23 2020-** Grand River Hospital confirmed that two of its staff members tested positive for COVID-19.<sup>508</sup>
- **April 29 2020-** Region of Waterloo Public Health reported that the Grand River Hospital had outbreak in the Medicine Unit 8A had ended.<sup>509</sup>

#### Long-Term Care and Retirement Homes in Kitchener-Waterloo

##### Cambridge

##### Chartwell Queen's Square Retirement Home

- **May 30 2020-** An outbreak has been declared at Chartwell Queen's Square Retirement Home in Cambridge with one resident testing positive for COVID-19.<sup>510</sup>
- **June 8 2020-** Region of Waterloo Public Health reported that the outbreak at Queen's Square Retirement Home had ended.<sup>511</sup>

##### Golden Years Long-Term Care Home

- **May 2 2020-** On Saturday May 2, Golden Years Long-Term Care Home in Cambridge confirmed one staff member tested positive for the virus. A representative says they were self-isolating.<sup>512</sup>

<sup>732</sup> *Outbreak Status Reports.* Middlesex-London Health Unit. June 11 2020. <https://www.healthunit.com/outbreak-status-reports>

- **May 3 2020-** Thirteen patients and four staff at Greater Niagara General Hospital have tested positive for COVID-19 after two outbreaks were declared there since Friday. The first outbreak was declared Friday, in the inpatient Trillium unit at the Niagara Falls hospital. The second — confirmed Saturday night in inpatient Unit D — involved two staff members and seven patients.<sup>733</sup>
- **May 22 2020-** Niagara Health on Friday May 22 said the outbreak in the Trillium unit at the Greater Niagara General Hospital in Niagara Falls had been declared over. A second outbreak at GNGH, however, was ongoing.<sup>734</sup>
- **June 5, 2020 —** A second outbreak at the GNGH has been declared over.<sup>1</sup>

#### St. Catharines Hospital

- **April 11 2020-** An outbreak of COVID-19 was declared at the St. Catharines Hospital after a health care worker tested positive. Niagara Health today said the outbreak was in an inpatient unit and it has since been closed.<sup>735</sup>
- **April 14 2020-** Niagara Health has declared a second outbreak at the inpatient Unit 4A of the St. Catharines Hospital. Niagara Health said one of the staff members tested positive for the virus. The outbreak, which was on the unit that is dedicated to caring for COVID-19 patients, was declared because officials determined the case was health care-associated. The staff member was at home and self-isolating.<sup>736</sup>
- **April 22 2020-** Niagara public health declared a third outbreak at that hospital in unit 2A of the hospital Tuesday after a patient tested positive for the virus in what is the first Niagara case of hospital-acquired COVID-19 in a patient.<sup>737</sup>
- **May 1 2020-** One of the COVID-19 outbreaks at the St. Catharines Hospital ended. Niagara Health's Infection Prevention and Control team said the outbreak on inpatient Unit 4A is over after 14 days with no evidence of further transmission and no new cases on the unit. The other two outbreaks were ongoing.<sup>738</sup>
- **May 7 2020-** A new COVID-19 outbreak at St. Catharines hospital has been declared in the intensive care unit. Niagara Health spokesman Steve Gallagher confirmed a health-care worker tested positive for the virus. He said the hospital system's investigation determined the transmission occurred in the hospital.<sup>739</sup>

## Hospitals Peel Region

### Trillium Health Partners (Credit Valley & Mississauga Hospitals)

- **April 1 2020-** An outbreak was declared at Credit Valley Hospital after four patients tested positive for COVID-19. They were in a geriatric rehabilitation unit and have been moved to an area that exclusively treats patients with the new coronavirus, the hospital said.<sup>987</sup>
- **April 14 2020-** Peel Public Health reported that the Mississauga Hospital confirmed that less than ten staff members tested positive.<sup>988</sup>
- **April 15 2020-** As of Wednesday morning, April 15, Trillium Health Partners (THP) has had 76 positive COVID-19 staff cases across its sites. The units impacted were as follows:
  - Unit 1D Rehab at Credit Valley Hospital, declared March 31 (declared over on April 14)
  - Unit 4B Medicine at Mississauga Hospital, declared April 9
  - Unit 3A Medicine at Mississauga Hospital, declared April 11
  - Unit 2D Mental Health at Credit Valley Hospital, declared April 12<sup>989</sup>
- **April 30 2020-** Trillium Health Partners reported that the 2 outbreaks at the Mississauga Hospital had ended (Units 3A Medicine and 4B Medicine), and announced three more outbreaks at Credit Valley Hospital with cases in 7 patients and 8 health care workers:
  - 1B Medicine:-Two patients and two health care workers on Unit 1B Medicine at Credit Valley Hospital tested positive for COVID-19 between April 9, 2020 and April 13, 2020. An outbreak was declared on April 14, 2020. These cases were presumed to be hospital acquired.
  - 2B Medicine- Six health care workers and three patients on Unit 2B Medicine at Credit Valley Hospital have tested positive for COVID-19 between April 10, 2020, and April 18, 2020. An outbreak was declared on April 18, 2020. These cases were acquired from a number of sources including community and hospital transmissions.

- **April 16 2020-** At Bluewater Health Hospital in Sarnia, eight staff members tested positive for COVID-19.<sup>1180</sup>
- **May 1 2020-** Bluewater Health Hospital reported that 15 staff at the hospital have confirmed COVID-19. Communications Chief Julia Oosterman said all 15 are currently recovering at home. “We know from contact tracing, which is a process that is done to go back and see who people were in contact with, that five of those individuals likely acquired the COVID virus in hospital and the remaining 10 likely acquired it in the community.” Oosterman said none of them have recovered as of yet.<sup>1181</sup>
- **June 17 2020-** A new outbreak has been declared at Bluewater Health with three staff members testing positive for COVID-19.<sup>1182</sup>
- **July 14 2020-** The outbreak was declared resolved by the local public health unit.<sup>1183</sup>

#### Lambton Meadowview Villa

- **April 16 2020-** One staff member at Lambton Meadowview Villa tested positive for COVID-19 and the facility was declared in outbreak.<sup>1184</sup>
- **April 23 2020-** The outbreak at Lambton Meadowview Villa LTC in Petrolia was declared over.<sup>1185</sup>

#### Landmark Village Retirement Home

- **March 27 2020-** A resident at Landmark Village in Sarnia was confirmed as a new case. The patient was admitted to Bluewater Health March 20, said Steeves & Rozema CEO John Scotland. The independent living retirement home has since sent three to five staff members who came in contact with the man home to self-isolate and self-monitor for 14 days.<sup>1186</sup>
- **March 30 2020-** Three of the four Sarnia-area deaths from COVID-19 in recent days were elderly people from the same retirement home. Dr. Sudit Ranade, Lambton County’s medical officer of health, confirmed Monday March 30 that there were at least six additional cases at a local retirement facility. John Scotland, CEO of Steeves and Rozema, confirmed Monday the retirement home was its facility, Landmark Village.<sup>1187</sup>
- **March 31 2020-** Lambton Public Health confirmed on April 1 that a fourth person connected to the Landmark Village seniors' home in Sarnia was admitted to Bluewater Health Hospital on March 30, and died on March 31. The test result confirmed that individual was positive for COVID-19.<sup>1188</sup>
- **April 5 2020-** Lambton Public Health confirmed that Landmark Village in Sarnia had 15 confirmed cases- six staff, nine residents, and four deaths (all residents as previously reported).<sup>1189</sup>

## Orillia, Spencer House

- **April 1 2020**- A staff member at the Spencer House, a long-term care home, was confirmed as a new case by Charles Gardner, the unit's medical officer of health.<sup>1244</sup>
- **April 3 2020**- The Simcoe Muskoka District Health Unit reported 18 probable cases in symptomatic staff members at Spencer House, and were investigating the sudden deaths of two residents. As of the evening of Friday April 3, ten of those staff and two other residents had been tested with results pending.<sup>1245</sup>
- **April 6 2020**- Dr. Charles Gardner, medical officer of health for SMDHU, announced that the two deaths at Spencer House were investigated, and were found to have had "underlying conditions" and were not being considered COVID-19 deaths by the health unit. All but two test results had come back, all with negative results for COVID-19.<sup>1246</sup>
- **April 10 2020**- The outbreak at Spencer House was declared over, as per the Simcoe Muskoka District Health Unit's website.<sup>1247</sup>

## Simcoe, Cedar Crossing Retirement Community

- **May 14 2020** – An outbreak has been declared at Cedar Crossing Retirement Community with one resident testing positive for COVID-19.<sup>1248</sup>
- **June 12 2020**- The outbreak at Cedar Crossing Retirement Community has ended.<sup>1249</sup>

## Waubushene, Bayview Retirement Home

- **April 28 2020** – An outbreak was declared at Bayview Retirement Home in Waubushene.<sup>1250</sup>
- **May 1 2020** – One employee was confirmed positive at the Bayview Retirement Home.<sup>1251</sup>
- **May 8 2020** – Bayview Retirement Home had cases in 1 staff and 1 resident.<sup>1252</sup>
- **May 28 2020**- The outbreak at Bayview Retirement Home was declared over, as per the Simcoe Muskoka District Health Unit's website.<sup>1253</sup>

- **March 30 2020-** Two staff members and two patients at The Centre for Addiction and Mental Health (CAMH), a psychiatric hospital in Toronto, tested positive for coronavirus, as confirmed in a statement sent to Global News Monday March 30.<sup>1314</sup>
- **April 5 2020-** In total, five patients and twelve staff tested positive for COVID-19 at CAMH. A confirmed COVID-19 outbreak was declared on Unit 3-1 (forensic unit) at the Queen Street site. CAMH's forensic program delivers mental health care to people who come into contact with the law and have been found not criminally responsible. Suspect COVID-19 outbreaks were declared on Unit 3-5 (forensic unit) and on the Geriatric Inpatient Unit A, also at the Queen Street site. The geriatric unit provides mental health care to seniors.<sup>1315</sup>
- **April 10, 2020-** 14 staff members have tested positive at the CAMH (Queen site) in Toronto, an increase from 12 staff (April 5).<sup>1316</sup>
- **April 29 2020-** Toronto Public Health confirmed the following updates regarding cases in 3 CAMH outbreaks totalling 18 patients including 2 deaths, and 4 staff:
  - Unit 3-1 (declared March 26): 8 patients including 1 death, and 4 staff
  - Unit 3-5 (declared April 3): 4 patients
  - Geriatric Inpatient Unit (declared April 6): 6 patients including 1 death<sup>1317</sup>

The other 10 staff members presumably recovered.

- **May 4 2020-** Toronto Public Health reported that the outbreak in Unit 3-1 ended.<sup>1318</sup>
- **May 5 2020-** Toronto Public Health reported that the outbreak in the Geriatric Inpatient Unit ended.<sup>1319</sup>
- **May 21 2020-** The Centre for Addiction and Mental Health reported that the outbreak in Unit 3-5 had ended. They reported a total of 20 patients who tested positive (increase of 2), including 2 deaths and 16 recovered. They also reported cases in 26 staff (increase of 12), 23 of whom recovered.<sup>1320</sup>
- **June 1, 2020-** The Centre for Addiction and Mental Health reported that 3 more staff members had recovered, and one more had been diagnosed with COVID-19 for a total of 27 staff infected. One more patient was also infected (21 total).<sup>1321</sup>
- **June 18 2020-** The Centre for Addiction and Mental Health reported that they a total of 29 staff (increase of 2) and 22 patients (increase of 1,) including 2 deaths, test positive for COVID-19.<sup>1322</sup>

- **July 15 2020-** The province of Ontario reported that Villa Colombo Homes for The Aged had 27 resident deaths (increase of 6).<sup>1952</sup>

### Village of Humber Heights

- **April 1 2020-** Toronto Public Health reported one COVID-19 case in a resident at Village of Humber Heights retirement home.<sup>1953</sup>
- **April 2 2020-** In an April 2 post on Schlegel's website, the company said that its Humber Heights facility in Toronto had four residents and one staff member with confirmed COVID-19 cases and several others on watch awaiting test results.<sup>1954</sup>
- **April 9 2020-** The Village of Humber Heights retirement home had two deaths total- one on April 8, and one previous to that. The outbreak was only in the retirement homes (they call them 'villages'). According to the daily report the home provides, here is the case breakdown by village:
  - Emma's: 2 deaths, 13 residents and 9 staff
  - Egerton: 1 resident
  - Williamsburg: 4 residents
  - Becker: 1 staff
  - Non-neighborhood specific: 4 staff<sup>1955</sup>
- **April 10 2020-** The new cases (in addition to the April 9 ones reported) at the Village of Humber Heights retirement homes were broken down as follows:
  - Emma's: 2 less residents (11 total)
  - Williamsburg: 2 residents (6 total)

The new cases at the Village of Humber Heights long-term care homes were broken down as follows:

- Lambton: 1 staff<sup>1956</sup>

## Windsor and Essex County

### Michigan Health Care Staff living in Windsor

- **March 21 2020-** The second identified case in the region involved a man in his 20s who works in a health care facility in Michigan and resides in Windsor and Essex County. He developed symptoms on March 15 and was tested on March 17. Officials said he had been self-isolating and was recovering at home with mild symptoms.<sup>2023</sup>
- **March 31 2020-** The Windsor-Essex County Health Unit announced that to date they had 65 confirmed cases, with approximately one third who were health care workers. All but one work in Michigan across the border. The state of Michigan has close to 5 times the number of cases than Ontario, and the City of Detroit has approximately as many cases as the province of Ontario.<sup>2024</sup> Historically, there have been 54 individuals working at Windsor Regional Hospital who work in a Detroit hospital as well, and approximately 13 individuals that live in Michigan and only work at Windsor Regional Hospital.<sup>2025</sup>
- **April 7, 2020-** The Windsor-Essex Health Unit reported 75 confirmed cases among health care staff. Of those, 25 were listed as nursing home staff. There were not updated details about the other 50 positive cases among health care staff in the region.<sup>2026</sup> (See March 31 note above.)
- **May 29 2020-** The Windsor-Essex Health Unit reported 222 confirmed cases among health care staff. 55 are from travelling to Michigan.<sup>2027</sup> We account for 102 here.
