

Ontario Health Coalition

COVID-19 Outbreaks in Non-Healthcare Settings

Updated to December 2 2020, Released on December 15, 2020

Introduction

It is evident that lockdowns in hotspots and increasing restrictions in most Public Health Unit regions have been inadequate to stem the spread of COVID-19 as Public Health Ontario reports a 22.1% increase in cases during the two-week period from November 18th - December 2nd¹, a rolling 7 day average of 1,795 cases per day² and a provincial test positivity rate of 3.9% during the week of November 22nd- November 28th, in which two neighbourhoods in Toronto and York have positivity rates above 20% and 27 areas in Peel, Toronto, York, Durham, Waterloo and Windsor have positivity rates above 10%. The Public Health Units with the highest test positivity rates are Peel (10.3%, Toronto 6.0%, York 5.7%, Windsor-Essex 4.3%, Waterloo 3.9%, Durham 3.7%, Hamilton 3.4% and Halton 3.3%³. The increase in non-health care workplaces now far outpace the spread in the general public, increasing 26.64%⁴ in the same two weeks. This increase, as reported by Public Health Ontario also only includes 1,273 cases in schools associated with outbreaks (due to their narrow definition of “outbreak” in schools), compared to the actual 5,146 total cases in students and staff reported by the province of Ontario. With limited reporting being made available by most Public Health Units, the Ontario Health Coalition calculates that there has been an increase of 24.93% in cases in non-health care workplaces (including schools) over the most recent two-week period captured in this report, including all cases in schools and day care settings.

While cases in schools did not increase as drastically as in our previous report, the growth is still alarming and far beyond the rate of increase in the general public, increasing 41.4% in two weeks. Large outbreaks at Thorncliffe Public School in Toronto and Frank W. Begley in Windsor-Essex, indicate that the potential for spread in our schools may be worse than expected. Thorncliffe Public School is part of a provincial program offering voluntary on-site testing at schools in high positivity areas. After joining the program there were 26 cases discovered with each of the school’s 18 classes having one or two positive cases⁵. After declaring an outbreak at Frank W. Begley, the number of positive cases have increased significantly as the school was tested and 45 cases have been associated

⁵ Alphonso, Caroline. *Toronto school closes after COVID-19 testing blitz uncovers more than two dozen cases* *Globe and Mail*. December 3 2020 <https://www.theglobeandmail.com/canada/toronto/article-students-self-isolating-after-more-positive-covid-19-tests-at/>

with the outbreak.⁶ These large outbreaks indicate that better measures are needed to respond to the high growth in the spread of COVID-19 in schools.

The largest increase in cases that we were able to find in this report was from the manufacturing sector as the spread of the novel coronavirus grew by 76.68% in two weeks. Not only have there been large outbreaks, such as the one at a Window Covering factory in Vaughan, but there have been outbreaks in low positivity health units like Cameco in Port Hope and Proctor and Gamble in Belleville. Retail outbreaks have continued to grow severity and frequency and have also spread across Ontario. Retail outbreaks have increased 29.38% since our last report and have spread as far north as Sudbury. Cases in outbreaks among Public Service workplaces like transit, LCBO, Service Ontario and Utilities have risen 23.24% and cases in construction have also risen 25%. Since it is evident that lockdown has not sufficient to curb the spread of the virus in Toronto and Peel and cases continue to spread from these hot spots, stronger measures, including clear and enforced infection control protocols must be put in place in workplaces that remain open.

While it has been impossible to find systematic province-wide information for workplace outbreaks due to the lack of transparent reporting in most Public Health Units, there have been significant improvements during this report. Brant County and Hamilton Public Health Units are now reporting the names of businesses and cases associated with all outbreaks. Hastings-Prince Edward and Timiskaming are reporting names of businesses only when necessary to properly contact trace the outbreak and Peel and Waterloo are revealing case numbers and industries but not the business names. All other Public Health Units are not reporting any information beyond health care, some report congregate care settings and Windsor-Essex and Chatham-Kent report agricultural outbreaks. Toronto is among the least transparent in their reporting, only reporting hospitals, long-term care, retirement homes and homeless shelters.

Contact tracing and quarantining remains a huge problem. In our last report during the week of November 14, 35.4% of COVID-19 cases had not been traced back to an exposure source. For the week of November 28, 36.7% of cases have been traced back to their source. In order to control the spread of this virus, Public Health Units must be given the resources to be able to contact trace COVID-19 cases and all those exposed must self-isolate or quarantine. The public needs to know what businesses are a source of potential exposure so that Ontarians can make informed decisions as well as know when to get tested or contact their local Public Health Unit. Instead of providing this, the Ford government seems to be intent on loosening requirements for quarantining after international travel and sitting idle while waiting for a vaccine.⁷

Chart 1. Public Health Ontario's Reported COVID-19 Outbreaks in Non-Health Care Industries

(This chart shows the number of reported outbreaks in Ontario as reported by Public Health Ontario, broken down by industry. Workplaces are considered agricultural, retail and food processing public services, manufacturing)⁸⁹

Industry	Number of Active Outbreaks Dec. 2	Cumulative Outbreaks	Cumulative Cases to Nov. 18	Cumulative Cases to Dec. 2
Shelters	12	72	640	643
Corrections	4	11	125	126
Group Homes	43	219	1,021	1,194
Workplaces (agricultural, retail, food processing, public services, manufacturing)	298	946	4,422	5,694
Daycare and Schools*	169	467	843	1,273
Total	526	1,715	7,051	8,930

*Public Health Ontario is now reporting some cases associated with school outbreaks, however their definition of a school outbreak requires a known epi link (same class or direct contact) and does not reflect the number of cases in schools even when there are multiple cases in the same school.

Chart 2. COVID-19 Ontario Health Coalition's Tracking of Cases by Industry & Regions Impacted

(This chart shows the cumulative cases the Ontario Health Coalition has been able to find in each industry and which regions have had outbreaks in that industry)

This total includes cases that we had previously tracked plus all of the cases that the province is reporting since September. We have also included outbreaks in faith schools, administrative offices, student residences and private schools in our total.

Agriculture

Deaths of Three Migrant Workers:

1. On May 30, Bonifacio Eugenio-Romero, a 31-year old migrant worker from central Mexico, became the first foreign agricultural worker to die in Ontario from COVID-19. Eugenio-Romero had been in the country since early April and worked for Woodside Greenhouses Inc. in Kingsville, Ontario.
2. On June 5, a second worker, 24-year-old Rogelio Muñoz Santos, who also worked on a farm in Windsor-Essex died from COVID-19.
3. Fifty-five-year-old Juan Chaparro had been coming to Canada to work since 2010 and was employed at Norfolk County's Scotlynn Group farm, where there has been a cluster outbreak of COVID-19. He is the third migrant worker to die this month after contracting COVID-19. The two others died in the Windsor area.¹⁰

London/St Thomas:

London-Ontario Plants Propagation facility: May 29 2020

Eight migrant workers at the Ontario Plants Propagation facility outside of St. Thomas have tested positive for COVID-19. The workers live in London but travel to the operation at 38024 John Wise Line.¹¹

London-Ontario Plants Propagation facility: July 8 2020

Twenty migrant workers at the Ontario Plants Propagation facility outside of St. Thomas have tested positive for COVID-19. Two agriculture workers have also tested positive for COVID-19. The workers live in London but travel to the operation at 38024 John Wise Line.¹²

Elgin County- Martin Family Fruit Farms: November 3 2020

There have been 40 cases of COVID-19 among the Migrant Agricultural Workers at Martin Family Fruit Farms.¹³

Haldimand Norfolk:

Haldimand Norfolk-Scotlynn Group: June 25 2020

Approximately 220 migrant farm workers live in residences on the farm. Approximately 200 people have tested positive. Two workers are currently hospitalized.¹⁴

Haldimand Norfolk-Schuyler Farms: November 16 2020

An outbreak has been declared at Shuyler Farms with 13 cases of COVID-19 among their Migrant Agricultural Farm Workers.¹⁵

Windsor Essex and Niagara:

June 9 2020

It is estimated that there have been 400 agriculture and food workers who have tested positive in the Windsor, Essex, and Niagara region. There have also been two Mexican migrant workers who have passed away from COVID-19 and 2 more who are currently in Intensive Care. The Windsor Essex Public Health Unit reported 43 new cases on June 9th 2020, which was the highest spike since the disease peaked in mid-April. There have also been 34 more COVID-19 cases in the town of Leamington which hosts over 8,000 migrant workers, who live in communal housing and work together closely without proper access to PPE. There have been 17 farms with COVID-19 outbreaks, but the Public Health Units are not releasing their names. The worst outbreaks have been at Greenhill Produce in Kentbridge, Scotlynn Group in Norfolk County and Ontario Plants Propagation of St Thomas.¹⁶

Niagara:

Pioneer Flower Farms: June 4 2020

St. Catharines greenhouse, Pioneer Flower Farms, has become the site of the single largest jump in local COVID-19 cases since the pandemic hit Niagara in March. 60 workers have been placed in isolation of which 40 have tested positive.¹⁷

Pioneer Flower Farms: July 10 2020

Pioneer Flower Farms had at least 65 workers test positive for COVID-19, increasing by 5 since the early reports of the outbreak in June. ¹⁸

Lincoln Flower Farm: November 10 2020

There have been 45 cases of COVID-19 among agricultural farm workers. ¹⁹

Windsor Essex

June 29 2020

The health unit says a total of 674 agri-farm workers have tested positive for the virus in the region. Six workplaces in the agriculture sector are in outbreak status – four in Leamington and two in Kingsville. ²⁰ Nature Fresh in Leamington has had 191 cases of COVID-19 in their agriculture migrant workforce over this weekend. ²¹

July 14 2020

The health unit says a total of 824 agri-farm workers have tested positive for the virus in the region (an increase of 150 since June 29). ²²

Leamington & Kingsville Agricultural Facilities: July 7 2020

The COVID-19 outbreaks at two agricultural facilities in Leamington and two agricultural facilities in Kingsville continue. ²³

August 25 2020

The health unit says a total of 1170 agri-farm workers have tested positive for the virus in the region (an increase of 346 since July 14). There are currently two active outbreaks in agriculture facilities in Leamington ²⁴

September 17 2020

The health unit says a total of 1176 agri-farm workers have tested positive for the virus in the region (an increase of 6 since August 25). There no outbreaks reported in Windsor Essex ²⁵

October 15 2020

The health unit says a total of 1200 agri-farm workers have tested positive for the virus in the region (an increase of 24 since September 17). There is one farm with an active outbreak in the region with 17 reported cases involved in the outbreak.^{26 27}

November 18 2020

One agricultural workplace outbreak was reported in the municipality of Leamington by the Windsor-Essex Public Health Unit. The total number of cases reported in the area is now at 1262, an increase of 62.²⁸

December 2 2020

The health unit says a total of 1293 agri-farm workers have tested positive for the virus in the region (an increase of 93 in two week). There are three outbreaks active as of December 2.²⁹

Chatham Kent

Greenhill Produce: June 15 2020

An outbreak was investigated at the end of April with 40 agricultural workers testing positive for COVID-19 at Greenhill Produce.³⁰

Greenhill Produce: July 2 2020

The outbreak at Greenhill Produce has grown to 103 cases in their workers but has now been resolved.³¹

Chatham-Kent Agricultural Industry: August 25 2020

The Chatham-Kent Public Health Unit has reported 108 Temporary Foreign Workers and 130 Farm Workers have tested positive for COVID-19³²

Chatham-Kent Agricultural Industry: September 17 2020

The Chatham-Kent Public Health Unit has reported 112 Temporary Foreign Workers and 129 Farm Workers have tested positive for COVID-19³³

Conestoga Meat in Kitchener had to close production for a time in order to contain their COVID-19 outbreak. To date they have had 91 workers at their Breslau plant test positive for COVID-19, however 71 of those cases are now resolved.⁴²

Cargill Meat Packaging Plant: December 2 2020

There is an outbreak at Cargill meat packaging plant in Kitchener with 8 cases associated with the outbreak.⁴³

York Region:

Saputo Dairy Products: May 19 2020

As of May 19 2020, there had been 50 cases of COVID-19 from workplace exposures in York Region. The largest being an outbreak at Saputo Dairy Products where 24 workers tested positive for COVID-19 and one worker passed away from the virus. The other locations have not been disclosed by the public health unit. There have been 31 workers test positive in Vaughan with one worker ending up in the ICU, 9 workers test positive in Markham with two workers hospitalized and one in the ICU, 3 workers test positive in Newmarket with one death and two currently self-isolating, 3 workers test positive in Richmond Hill with one ending up in the ICU, 2 testing positive in Aurora and 2 in Whitchurch-Stouffville.⁴⁴

Waterloo:

Food Processing Plant: June 2 2020

An outbreak is ongoing at a food processing plant in Waterloo with 14 workers testing positive for COVID-19. Waterloo Public Health has not released any more information about the facility.⁴⁵

Food Processing Plant: July 14 2020

Two undisclosed outbreaks in Waterloo have been declared resolved with a total of 112 cases.⁴⁶

Burford- Ferrero Plant: July 14 2020

One staff member at the Ferrero Plant has tested positive for COVID-19.⁴⁷
