

Tenacious Trojan horse crosses the province

Like the fortified walls of ancient Troy, a powerful national consensus has so far protected public health care from attempts to privatize it. P3s are packaged to circumvent these powerful defenses by deception. A giant five metre Trojan horse representing the devious plans to privatize health care via the P3 model has been crossing Ontario, drawing attention to the Conservatives' privatization of health care by stealth and the McGuinty Liberals' weak position on the issue. Here is the schedule for the Trojan horse tour:

Tuesday, September 9 - launch in Peterborough.

September 10-13 - trail Ernie Eves.

Monday, September 15 - Windsor and Chatham .
