## Ontario Is Experiencing Exponential Growth of COVID-19 Cases In Long-Term Care OHC's Roundup of Most Recent Case Numbers

Including Large Long-Term Care, Retirement Home, Hospital and an Outbreak Among Niagara Paramedics

Toronto – COVID-19 is spreading and the Ontario Health Coalition is warning that there is exponential growth in positive cases in long-term care homes in particular. There are also large outbreaks in a number of hospitals and retirement homes, and a new outbreak among Niagara paramedics. The Health Coalition has released tracking of the latest numbers here for all “large” outbreaks, which the Coalition is defining as any outbreak with more than 10 people infected.

“This is a huge change from the summertime and even from the beginning of September, and it is alarming,” warned Natalie Mehra, executive director of the Ontario Health Coalition. “Obviously the provincial government has not taken sufficient measures to keep the most vulnerable among us safe. We have repeatedly called for improved testing, staffing, proper PPE and infection control, immediate cohorting and a systematic approach in which the province intervenes quickly to get staff in or residents out and saves peoples’ lives. All of these are still not happening to varying degrees.”

She warned that outbreaks, which through the summer were confined to one or two residents, are now growing exponentially. The number of outbreaks has increased dramatically. The intensity of those outbreaks has increased dramatically. The spread of outbreaks beyond the so-called “hot zones” has increased also. With great sadness, the Coalition reports that deaths are also increasing and deaths, from experience to date, follow infections by several weeks.

### List of Large Currently Active Outbreaks Tracking the Spread of COVID-19 in LTC, Retirement Homes & Hospitals (and one Paramedic Outbreak)

#### Brant County

##### **Brucefield Manor**

- Oct 31: outbreak started <sup>i</sup>
- Nov 3: 1 unspecified case <sup>ii</sup>
- Nov 6: 16 residents and 2 staff <sup>iii</sup>
